

# Case Study

## Planning for Anaerobic Digestion Plant, Arundel, West Sussex

Completed: November 2016

### Objectives

---

- Secure planning consent for a biomethane production plant capable of generating approximately 77,000MWh of energy per annum
- Ensure a workable scheme which complements and expands the existing operations of the site
- Biogas to be upgraded to produce approx. 8,000,000m<sup>2</sup> biomethane to be used as vehicle fuel or for direct injection into the national gas grid

### Client

---

- Wicks Farm (Biogas) Ltd.

### Delivery

---

- Prepare and submit a planning application
- Preparation of the supporting documentation and project management of a multidisciplinary team of specialist consultants
- Comprehensive consultation and negotiation with Local Waste Planning Authority officers and Councilors
- Successfully secured consent at planning committee

---
