

# Case Study

## Planning for Quarry Restoration Brixton, Devon

Completed: September 2014

### Objectives

---

- Advice on restoration of former quarry and brickworks site as required under existing ROMP notice
- Produce masterplan identifying intentions for future landuse and water management to propose to Devon County Council
- Liaise with statutory consultees to agree importation of inert waste material for restoration as 'waste recovery'
- Prepare and submit full planning application

### Client

---

- Private Landowner

Devon

### Delivery

---

- Produce feasibility report to advise on restoration to a range of commercial land use options
- Design masterplan based on a commercial waste scheme
- Detailed discussions with Devon County Council to agree an acceptable scheme for the site
- Prepare and submit planning application documents including full EIA
- Undertake community engagement event
- Successfully secured consent at county development planning committee
